

The ELiTE ADAP-3T (Adapter bar)

Manufactured to fit to your 12TD, 16TD, 12TD/CD2, 16TD/CD2 ELiTE vacuum pipe lifter models.

The ADAP/3T adapter bar is an additional accessory for customers who already utilised shorter suction pads (originally supplied for V-SB-4/5 spreader bar, but may wish to mount them directly below the above models).

A retrofit accessory designed for a rapid and economical switch from long to small pipe lengths.

Call or email us for further information or the contact details of your local agent or distributor.
